

Prescription Medication: What We Need at School

For us to follow Wisconsin Law Wisconsin State Statute 118.29 Act 160 to safely give your child a prescription medication we must have:

1. The prescription medication supplied by a parent or guardian in a pharmacy-labeled container.
1. Written order from physician, nurse practitioner, or dentist indicating the medication must be given during school hours.
2. Written signature of parent or guardian.

If the medicine is to be given three times a day, please administer it at home in the morning, after school, and before bedtime.

We need the pharmacy-labeled container so we can identify six important points of information for the safety of your child:

1. Student name
2. Doctor's name
3. Date the bottle was filled
4. Name of the medication
5. The dose
6. The directions for administration

All medication stored at school is kept secure in a locked cabinet.

Note: If your child requires a prescription pain medication that is known to reduce the function of the central nervous system, such as the narcotic pain medications Vicodin, Hydrocodone, Tylenol #3, Oxycontin, etc. we request you keep your child safe in your care until their pain can be controlled with a non-narcotic pain medication.

By Wisconsin Law Act 160 we CANNOT accept medication in a baggy or in a container where the label is not clear *even if the pills are identifiable to us.*

“Blister pack or push packs”

Non-Prescription Medication “Over-the-Counter Medication” What We Need at School

For a school to follow Wisconsin Law Wisconsin State Statute 118.29 Act 160 to safely give your child a non-prescription medication we must have:

1. The non-prescription medication supplied by a parent or guardian in the original manufacturer’s packaging (bottle or blister pack in container) with the list of active ingredients and recommended therapeutic dosage.
2. Written signature of parent or guardian.
3. Drugs that may be administered in the school setting must be listed in the U.S. Pharmacopeia and National Formulary or the official homeopathic pharmacopeia. This includes oral medication such as vitamins, supplements, digestive aids, and non-oral medication such as topical creams, and eye/ear drops. Sorry, we are not able to give “Homemade” medication, creams, or drops. Aspirin is not allowed.
4. Nonprescription drug products may only be administered in higher than recommended dosage by written approval of the medical provider and parent or guardian.
5. By school district policy, any nonprescription drug which is needed for more than three days needs a physician’s signature.
6. By school district policy, any nonprescription drug requires informing the office staff of the condition for which the non-prescription medication is given and providing in writing: 1) dosage requested to be given, 2) time to be given, 3) when the last dose was given at home, 4) the expiration date of the medication. Also, the parent must provide a measuring device if the medication is liquid.

By Wisconsin Law Wisconsin State Statute 118.29 Act 160 to we **CANNOT** accept non-prescription medication in a baggy *even if the pill has a name and dose on it.*

Dental and Doctor Excuses for Physical Education What We Need at School

Wisconsin Stat. 118.16 (1) (c) states that students may be excused from physical education only if a parent/guardian provides written evidence from a physician or licensed practitioner that the student is not in proper physical or mental condition to participate. Such excuses shall state the period of time the excuse is valid, but not to exceed 30 days.

Breaks, Sprains, Surgery:

Students who require the use of slings, braces, crutches, or a wheelchair due to an injury or surgery must have a physician's order stating limitations and restrictions. The doctor's order must specifically include the use of crutches or a wheelchair during school.

A doctor's note is required to resume full activity in physical education, and field trips.

Those students unable to fully participate in physical education will also be limited in their participation in field trips as activity indicates.

Handicap parking is available at all school buildings for those students, family members, visitors and staff who have a temporary or permanent physical disability. If you are an able-bodied person, please keep those parking areas open for those that need them. Thank you!
